

QUICK START GUIDE

CAFE BREWING STATION

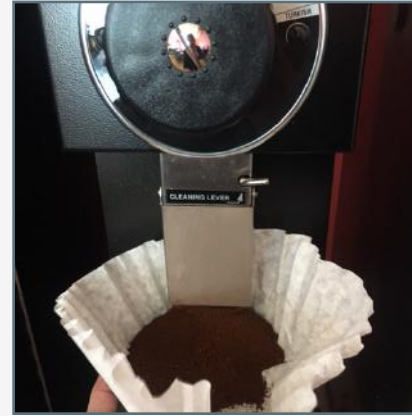

Fetco Brewer and Bunn Grinder User Guide

Prepare airpot and place under brewer

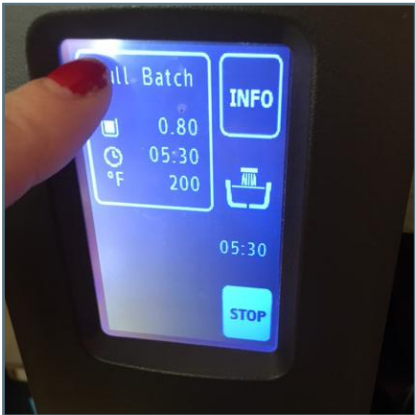

Measure a full 2 cup scoop of beans and place in grinder

Place a filter under the grinder chute, and press start while holding the filter in place with your hand

Once full of grounds, place the full filter in the filter basket, and slide into the filter slot

Choose your batch size by touching the LED screen. Once selected, press and hold again to start the brewing process

Once your coffee has finished brewing, and the basket stops dripping, remove the basket and empty compost grounds

Insert pump and close airpot

Lift pump lever and serve
